## Education

2013

Master, College of Electronics and Information Engineering, Tongji University.

2009

2013

Bachelor, College of Computer Science and Technology, Nanjing University of Information Science & Technology.

- in 2010, Second-class scholarship, Three goods student titles
- in 2011, Outstanding student leaders, School outstanding volunteers
- in 2012, Social practice group first prize

## Professional Skill

### Development

Language Java, CET-6

Subject Database Principle, Operating System, Computer Network and Application

## Experience

### Project

2012  
2013

Bar code identification system based on PDF417.

- To understand the encoding of two-dimensional bar code.
- To have a deep understanding of image processing and its algorithm.

2014  
2014

Design and implementation of the Network dialer.

- Network distribution for each project team
- Calm analysis and processing.
- The optimization of network bandwidth.

2014

The design of monitoring system for user behavior.

- Implements of the server-side functions.
- To have further understanding of user behavior certification.
